E-CONNECT

"THE START OF A SAFE AND RELAXED HOLIDAY"

The E-Connect connects your smart modules to your SMART-Trailer app.

The E-Connect is the central hub in the SMART-Trailer system and connects your caravan with your smartphone (via Bluetooth). Add several modules to your E-Connect that match your situation. Within the SMART-Trailer app you can check easily your battery level and you will get a warning when your brakes are overheated. This way you are always up-to-date on the status of your caravan. More time to enjoy your holiday safely and comfortably.

E-Connect:

- lightweight: 120 grams;
- powerful Bluetooth connection;
- easy to install in any caravan;
- the start of the SMART-Trailer;
- works on 12 Volts;
- app is available for both Apple and Android.

"LEVEL IN A VERY ACCURATE FASHION IN NO TIME"

Level your caravan all by yourself...

Are you also fed-up walking between your level device in your caravan and your jockeywheel or corner steadies? By making use of the E-Level you are able see the lengthways and widthways orientation of your caravan from any point of view. Even whilst driving you can use the E-Level from within your car. As soon as you turn the jockeywheel you see the status on your smartphone.

E-Level:

- no hassle, level your caravan all by yourself;
- easy to use;
- highly accurate;
- clear and simple overview.

E-LEVEL

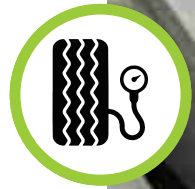

"PREVENT A TIRE RUPTURE DURING YOUR HOLIDAY!"

Your smartphone will warn you in case of a faulty tire pressure.

Did you know that a wrong pressure-setting will increase both your fuel consumption and the odds of a flat tire? By using the E-Pressure you are constantly updated on the temperature and pressure of your caravan tires. Use the E-Pressure to optimally adjust your tire pressure in order to prevent accidents.

E-Pressure:

- exchange your valve-cap for the smart E-Pressure cap
- lightweight: only 9 grams;
- easy to replace battery with a lifespan of 2 years;
- all tires in one overview on your smartphone;
- save up to 10% in fuel cost;
- warns if the pressure is too high or too low.

E-PRESSURE

E-MOUNTAIN

"PREVENT OVERHEATING OF YOUR CARAVAN BRAKES"

E-Mountain warns you when the odds of overheated brakes is high.

E-Mountain will assist you while driving in the mountains. You won't be bothered by overheated brakes anymore. You will receive a push-notification when the chance of overheating the brakes is high. Simply pause your trip for a moment and allow your brakes to cool down in order to prevent damage to your brakes. You can also use the E-Mountain as an altimeter.

E-Mountain:

- warns you in case of high chance of overheated brakes;
- prevents unnecessary wear of your brakes;
- returns the current inclination of the road;
- indicates the altitude.

"Never stuck due to an empty battery"

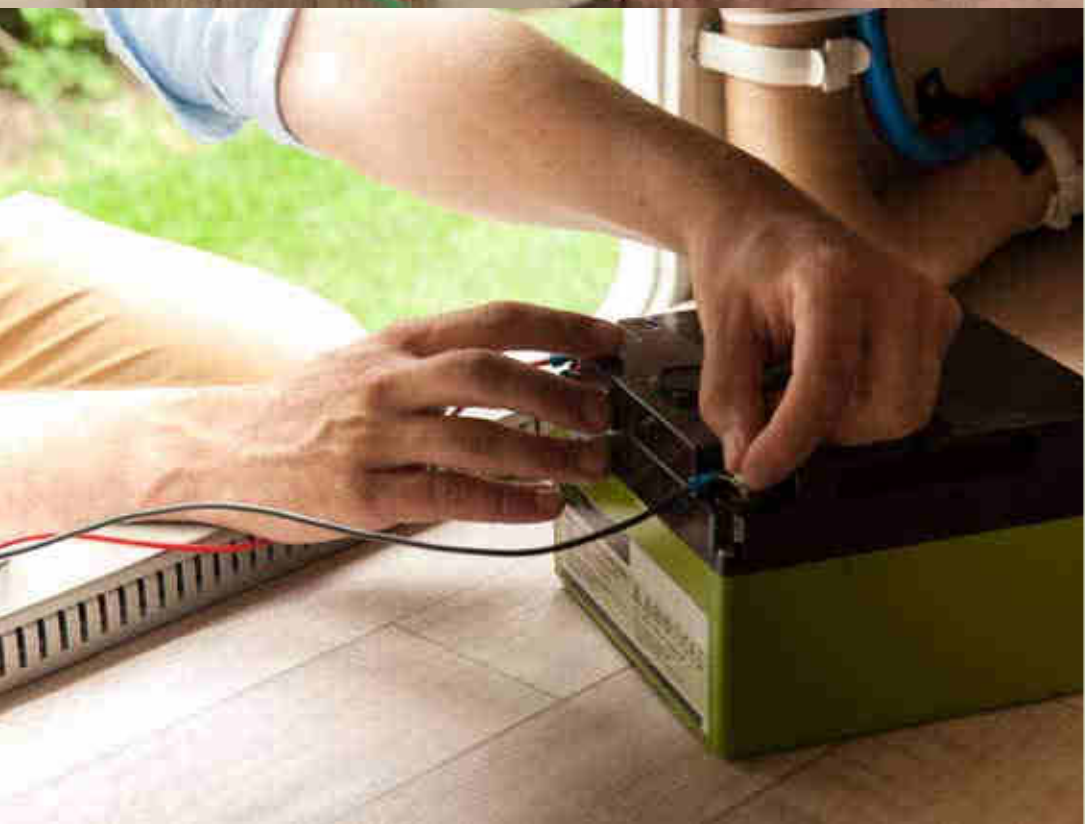

Use the E-Volt to gain insight in the status of your battery.

Are you up-to-date of the current status of your battery? Using the E-Volt you are able to easily see battery-voltage and number of cycles. Furthermore, it is possible to receive a warning on your phone in case of a low battery level. In line with the other SMART-Trailer products, the E-Volt is wirelessly connected to your smartphone and compatible with every type of battery.

E-Volt:

- easily updated of the status of your battery;
- compatible with every type of battery;
- alarm in case of a low battery level;
- indicates number of charge/discharge cycles.

E-VOLT

"NO LONGER AN UNEXPECTED EMPTY BATTERY WHEN ARRIVING AT YOUR HOLIDAY SPOT"

The E-Charge is part of the E-Volt and will charge your battery while driving.

Ever arrived at a camping with an empty battery? Using the E-Charge this problem won't happen to you anymore. Your caravan battery is charged while driving and while connected to the electrical grid. This way the E-Charge always provides you with current and ensures a healthy operational battery. This product is especially useful for smaller batteries.

E-Charge:

- part of the E-Volt;
- always a full battery;
- charges while driving;
- charges while connected to the grid;
- always enough energy to use your mover.

E-CHARGE

E-TEMPERATURE

"ALWAYS THE RIGHT TEMPERATURE IN YOUR FRIDGE!"

E-Temperature: wirelessly updated on the current temperature inside your caravan or fridge

The E-Temperature allows you to stay updated on temperature and humidity inside and around your caravan. Because the E-Temperature is small and wireless, you can install the module at any location you like. Prevent, for example, your food inside the fridge from overheating while driving. Set your personal temperature limit and receive an alarm in case of overheating.

E-Temperature:

- wireless temperature and humidity sensor;
- can be used in the fridge, caravan, outside or as a collar for your pet;
- lightweight: 25 grams;
- custom alarm in case of over- or under temperature;
- you can add as many E-Temperatures as you like.

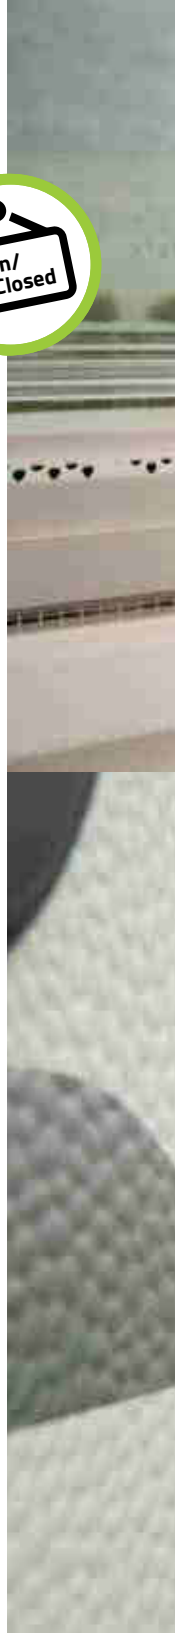

EVER FORGOT TO CLOSE YOUR DOOR OR ROOFTOP" HITCH?

E-Switch: receive a warning on your smartphone in case of an open door.

Did you ever forget to close the window, rooftop hitch or door of your caravan? Prevent this from happening with the E-Switch. This module is easily installed, wireless, on any type of door. The E-Switch is connected to your smartphone and you will be able to easily see if any of your doors are opened or closed. E-Switch will warn you if any door is left open while driving, similar to your car's warnings.

E-Switch:

- can be used for both doors and windows;
- check open doors or windows, wireless;
- compatible with every brand of caravan;
- lightweight: 25 grams;
- you can add as many E-Switches as you like.

E-SWITCH

E-EXTRA

"ADD A NEW SMART-TRAILER MODULE WITH THE TOUCH OF A BUTTON"

Using of regular updates, the system will always stay up-to-date

What would your personal SMART-Trailer module look like? Let us know! At E-Trailer we are always developing new products and expanding the functionality of the SMART-Trailer product group. Future modules, currently under development, are brake-temperature, an odometer, a track-and-trace module and tow ball weight, all easily connected to your smartphone app.

E-Extra:

- Would you like to order your personal SMART-Trailer system? Please have a look at our website to find a dealer in your area.
- www.e-trailer.nl/en/
- Regular software updates are developed for the E-Connect. These can be installed with a single touch of a button.
