Experience

Avtex has been the trusted name for mobile leisure specific audio visual products for over 30 years. Our skilled dedicated team design our TV's and other associated products specifically for the mobile leisure industry. Over the years we have accumulated a wealth of experience and technical expertise in this narrow sector and have an in-depth understanding of the market and its intricate requirements. Sleek design, high quality componentry, rigorous testing, state of the art technology and cutting edge features are the hallmark of Avtex products.

Avtex products are approved and installed by many leading leisure vehicle manufacturers throughout the world.

Support

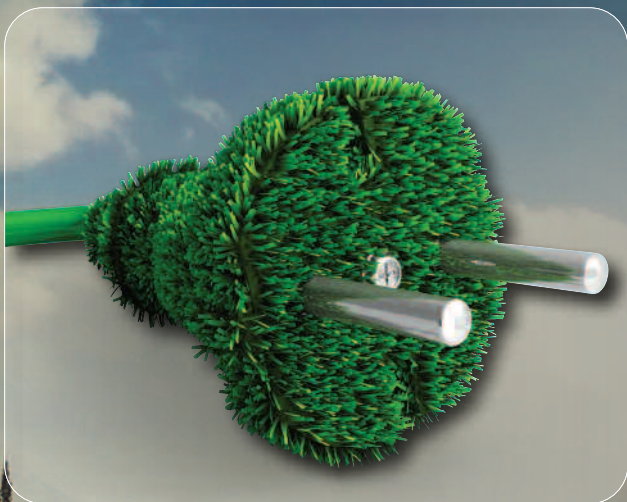

Although there are many electrical products available that are loosely stated as suitable for caravan and motorhome use this does not necessarily mean that they were specifically designed for this marketplace.

All products supplied by Avtex carry a comprehensive warranty and it is this uncompromising commitment to our high level of after-sales service which has a direct bearing on the products we supply.

You can rest assured that any product originating from Avtex has undergone stringent in-house testing by our technical department to evaluate the product's suitability for this unique environment as well as conforming to strict levels of build quality and long term reliability.

WHY COMPROMISE?

Designed for your **Mobile Life**

Internal 12v **Circuitry**

Avtex televisions are designed from conception for the outdoor leisure industry. Designed to operate on 12/24v DC and have an on screen low voltage alert to inform you when your battery is running low.

One Button **Tuning**

As you move from location to location, or country to country, you will need to re-tune your television to receive the local transmitter, a normally tiresome exercise. Avtex televisions feature AQT, a revolutionary one button tuning system that tunes, stores and orders all available television and radio stations at the touch of a button.

Battery **Indicator**

Using the intelligent power management system incorporated in your Avtex TV you can view the condition of your leisure battery on-screen from a touch of a button on your remote handset.

CONNECTED TV SERIES

Wi-Fi enabled

With the new Avtex Wi-Fi enabled Connected TV series you can watch HD TV via your aerial or a satellite dish without the need for extra equipment and you can also connect your TV to the internet to access a whole new world of extra entertainment!

Live TV, catch up services and with Freeview Play's unique TV guide built-in you can even scroll forwards and backwards 7 days through your TV guide and select and watch programmes that have already aired. Access new streaming channels, documentary's, movies and sport all for free!

Minimum broadband speed of 2Mbps required for catch up and on demand services. Watching on demand and catch up programmes will count towards any monthly broadband data allowance. 7-day catch up for selected channels. Extra costs may apply for additional third party services shown.

The channel logos are trademarks and copyright of their respective owners.

**Watch TV like
never before
in beautifully
crisp sharp
high definition**
(subscription free)

DVB-T2: DVB-T2 is DVB-T (digital video broadcast – terrestrial) 2nd generation. This latest digital broadcast platform allows broadcasters to transmit programmes in high definition (HD). Only products that are equipped with a DVB-T2 tuner can receive HD programmes through a standard aerial without the need for extra equipment.

DVB-S2: DVB-S2 is DVB-S (digital video broadcast – satellite) 2nd generation. This latest digital broadcast platform allows broadcasters to transmit programmes in high definition (HD). Products that are equipped with a DVB-S2 tuner can receive HD programmes through a satellite antenna without the need for extra equipment.

Enjoy crisp sharp High Definition on all of the latest range of Avtex TV's with most having both DVB-T2 and DVB-S2 tuners built-in.

This is not just HD ready,
this is **HD BUILT IN!**

WHY COMPROMISE?

L320TRS

Built-in DVB-T2/S2 full HD digital and satellite decoder

The new full HD 32" L320TRS makes the

luxury of large screen viewing practical even to people on the move thanks to its ultra-compact stylish design. Operating from either mains (240v AC) or battery (12-24V DC) and with a DVB-T2 HD tuner and a DVB-S2 HD tuner built-in, the L320TRS allows you the freedom to enjoy HD TV through an aerial or a satellite dish almost anywhere!

Packed with features such as Avtex AQT for simple set up and the ability to record or pause live TV to an external memory device. This is large screen mobile TV at its best.

Immerse yourself

SB195BT SOUND-BAR

All-In-One TV Sound-Bar & Bluetooth Speaker System

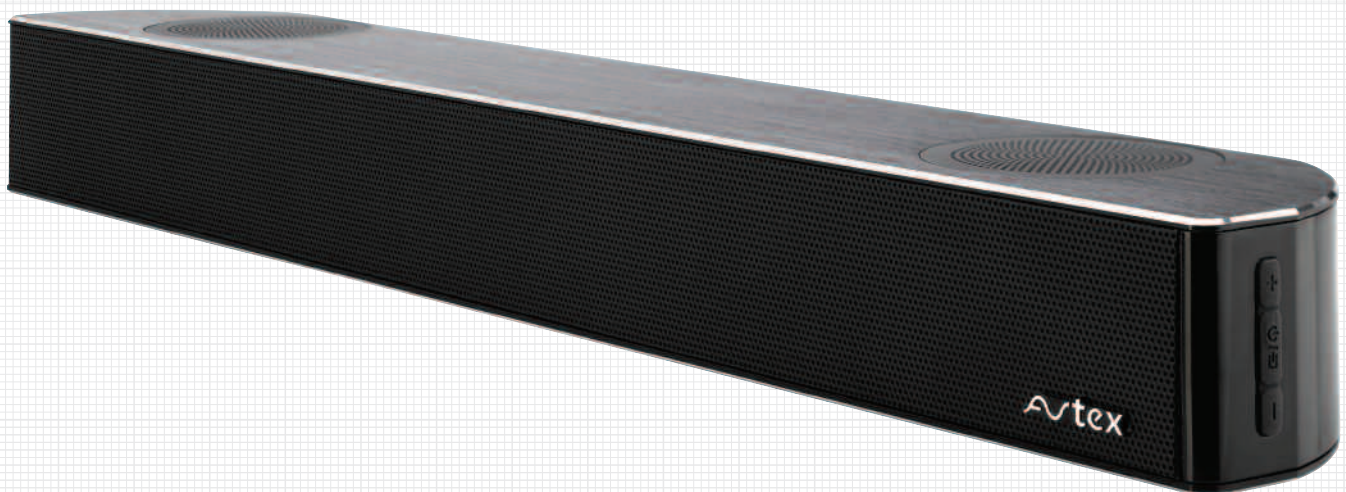

The Avtex Audio mini Sound-Bar revolutionises your audio experience at home or on the move. Immerse yourself in deep, rich and velvety tones from its four-speaker drive system. The Avtex Audio mini Sound-Bar is a natural companion to your Avtex TV (connection bracket for 8 and 9 series TV supplied, other brackets available) or as a stand-alone Bluetooth speaker.

Connect via Bluetooth and enjoy wireless music from your Bluetooth phone or devices. Designed to operate on a 12/24V DC battery and mains voltage means this unit is perfect for use in your caravan, motorhome or boat as well as your home. You will be amazed at the exceptional performance from such a compact unit. Admire the design DNA that influences the new Avtex Audio mini Sound-Bar.

THE COMPLETE SOLUTION

The SB195BT comes complete with a bracket so it can be attached to the latest Avtex TV's for wall mounting. Simply remove the TV stand (as it is not required when wall mounting) and use the same two holes that the stand uses to attach the bracket and Sound-Bar. Simple. For other makes of TV or older Avtex models consult your retailer regarding a mounting solution.

KEY FEATURES

- Bluetooth wireless music streaming
- Ultra-compact design
- Four speaker driver system

STH3000

The STH3000 boosted antenna with LTE

filtering is designed specifically for use with digital televisions. It is light weight, compact and very easy to use. With its unique flexible mounting system it can be installed indoors or outdoors in seconds. The integrated 20db amplifier can be powered by the antenna power out function found on most set top boxes and all Avtex digital televisions. Alternatively, the STH3000 uses a 12/24 volt dc power inserter (included) perfect for caravanners and truckers alike!

SPECIFICATION

- High gain 20dB TV aerial
- Directional
- LTE (4G) integrated filtering
- Built-in low noise amplifier
- 2 way power source
(TV antenna power out or 12v/24v)
- Flexible suction mount (similar to GPS windscreen mount) – no need to drill holes
- Pole or wall mounting bracket also supplied
- UV resistant housing
- Water resistant

ANTENNA

ANPS104

The Avtex ANPS104 is the perfect solution

for low signal strength areas or for boosting the signal to up to four separate TV locations. The Avtex ANPS104 amplifier operates on 12v DC designed for use in caravans or motorhomes.

FEATURES

- Low noise amplifier technology
- 1 input and 4 outputs
- High 12 dB Gain
- 12v DC power – lead supplied
- LED power on indicator

Navigation for Caravans & Motorhomes

Following a collaboration
between Avtex and satellite
navigation leaders Garmin a
range of caravan and
motorhome satellite
navigation products are
now available.

Exclusively endorsed by the
Caravan and Motorhome Club
these units contain all the
latest data for their sites
both home and abroad
as well as further directories
of over 9000 sites throughout
the UK and Europe.

TOURER TWO

Satellite Navigation for Caravans and Motorhomes

The new Avtex Tourer Two has been developed

through a collaboration between Avtex and satellite navigation industry leaders Garmin and comes packed with features specifically for use with caravans and motorhomes and being the Caravan and Motorhome Club Edition this unit has all the Caravan and Motorhome Club data allowing you to search, filter and view all the best Caravan and Motorhome Club sites.

The Avtex Tourer Two is designed to simplify navigation with motorhomes, caravans and campers. It comes preloaded with detailed maps of 45 European countries, with free lifetime map updates including information on road restrictions such as bridge heights. Just input the specs of your motorhome or caravan, then Avtex Tourer Two will use your camper profile to find the most efficient route across the UK and Europe. Your route will be determined based on the height, weight, length and width of your vehicle.

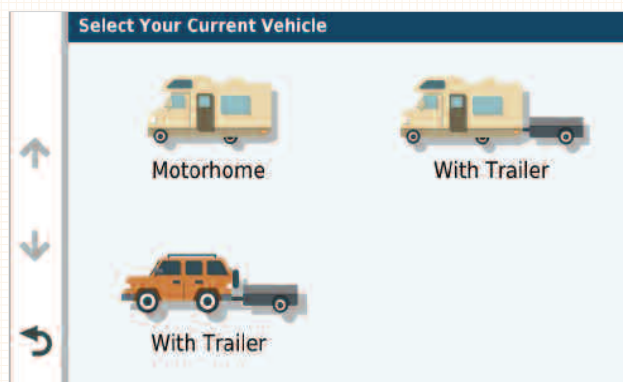

FEATURES

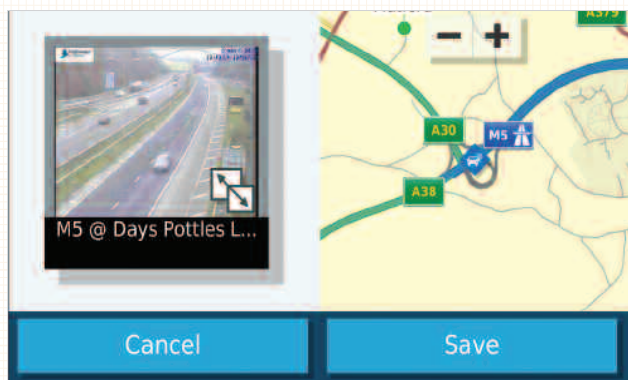

- 6.95" Frameless Display guides you to your destination with a pinch-to-zoom, capacitive glass display & easy route shaping feature
- Caravan and Motorhome Vehicle Profile shows speed limits, height restrictions and driver alerts for sharp curves and more
- Exclusive **Caravan and Motorhome Club** databases
- Extensive European caravan and motorhome site databases
- Map updates included via PC, Mac, or WiFi
- Free Digital Traffic
- Road Warnings, Elevation Profile and Driver Alerts
- Hands-free features include Bluetooth® calling, smart notifications and voice-activated navigation
- Road trip-ready with TripAdvisor® Traveler Ratings and millions of Foursquare® points of interest (POIs)
- Wireless Backup Camera compatible (not included)

- Suitable for Avtex Tourer One Plus
- Suitable for Avtex 660 Camper Premium
- Suitable for Avtex Tourer Two
- Tough, durable, hard outer shell
- Additional compartment for car charger
- Internal padding for extra protection

MOUNTING SOLUTIONS

In today's style conscious world many of our decisions are design led. So when choosing a flat panel TV wall mount a well designed, space saving solution is very important. Our new range of quick release mounting solutions are very simple yet highly functional. Most brackets can swivel and tilt (amounts vary by model, please see specifications below) and incorporate a quick release function allowing you to mount and remove your television from the bracket quickly and easily. A great feature for security and for those on the move.

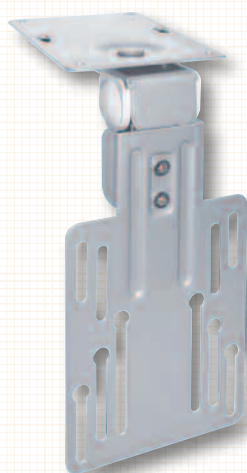

SV.5

SPECIFICATION

- Max support: 25kg
- Screen size: 10" – 24"
(25.5cm – 70cm)
- Quick release feature
